- Expected Result: Website should work correctly on every browser.
- Actual Result: Functionality is consistent across all browsers.
- Status: Passed
- Security Level: Low
- Remarks: Successful

Test Case:

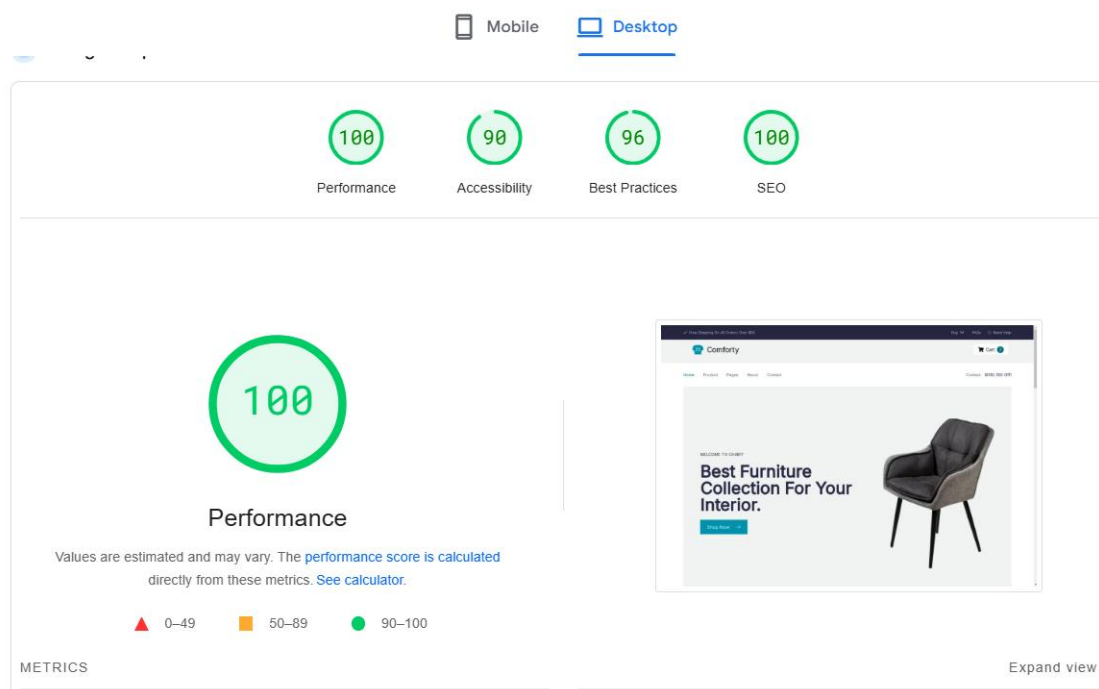

TC007 - Ensure Responsiveness on Mobile/Tablet

● Test Steps:

1. Resize the browser window to simulate mobile and tablet screen sizes.

- Expected Result: Layout should adjust properly according to screen size.
- Actual Result: Responsive layout works as intended.
- Status: Passed
- Security Level: Medium
- Remarks: Tested Successfully

Performance SEO (Optimization)

Conclusion for E-Commerce Website

Testing By thoroughly conducting multiple test cases on the Comforty E-commerce platform, we ensured the functionality, responsiveness, and reliability of the website across various scenarios. Below are the key highlights of the testing process:

1. Product Display and Listing

All products were successfully displayed without any issues on the Product Listing Page, ensuring a seamless browsing experience for users.

2. API Error Handling

Error messages were handled effectively, ensuring users are clearly informed about any issues with data fetching or connectivity. This enhances the user experience during unforeseen technical glitches.

3. Cart Functionality

The cart was tested for accurate updates, and it performed as expected, ensuring users can add, view, and interact with their selected products without errors.

4. Search Functionality

The search bar's validation was tested for both existing and non-existing products. The expected dropdown behavior ("No Product Found") was observed, which helps guide users effectively.

5. Dynamic Product Pages

Detailed product pages were dynamically rendered as expected, ensuring users can view and explore product details effortlessly.

6. Cross-Browser Compatibility

The website was tested across multiple browsers, including Chrome, Firefox, and Edge, and displayed consistent functionality and layout, ensuring a wider audience reach.

7. Responsiveness

The platform's responsiveness on mobile and tablet devices was tested, and the layout adjusted perfectly to different screen sizes, ensuring a smooth user experience across all devices.

Final Remarks:

The e-commerce website's testing process proved its readiness for production. The platform performed exceptionally well, with all major functionalities passing the test cases successfully. Minor improvements and refinements will ensure an even more robust user experience, positioning the platform as a reliable solution for customers.
